SEGMENTED OFFERS

HC declines to stay TDSAT relief

FE BUREAU
New Delhi, May 4

IN A SETBACK to the Telecom Regulatory Authority of India (Trai), the Delhi High Court on Friday declined to stay the interim relief provided by the TDSAT to incumbent operators from reporting segmented offers to the regulator. Trai had challenged the interim order of the TDSAT in the Delhi High Court, seeking its quashing or a stay. On April 24, the tribunal put an interim stay on Trai's new regulation which defined predatory pricing by giving a new definition

of significant market power (SMP) and sought to end segmented offers to consumers. The Delhi High Court refused to interfere with the order and sent the matter back to the TDSAT for final disposal. The arguments made by Trai and Reliance Jio on granting a stay on the interim order for immediate relief were refused on the grounds that this is a writ against the interim arrangement. The court asked the TDSAT to fix a schedule for hearing the matter. This means that Bharti Airtel, Vodafone India and Idea Cellular can continue to offer

This means that Airtel, Vodafone and Idea can continue to offer any tariff plans irrespective of their revenue and subscriber market share without being penalised as predatory

any tariff plans irrespective of their revenue and subscriber market share without being penalised as predatory by Trai. The TDSAT in its April 24 interim order said both these aspects of the new regulation (definition of SMP and bar on segmented offers) will be kept in abeyance and operators will not be penalised for not following them till a detailed hearing on the matter is completed. Providing relief to incumbents, the tribunal noted that the regulation with regard to

the SMP has undergone major changes compared to what was in place since 2003. In February, Bharti and Idea moved the TDSAT against Trai's 63rd amendment to the Telecommunication Tariff Order (TTO), where the regulator defined predatory pricing for the first time and amended the definition of ascertaining an SMP. Both the telecom operators claimed that the regulator's latest regulation would have "significant implications" for the sector and will adversely impact customer interest.

India tops list of world's fastest growing economies for coming decade: Study

PRESS TRUST OF INDIA
New York, May 4

INDIA TOPS THE list of the fastest-growing economies in the world for the coming decade and is projected to grow at 7.9% annually, ahead of China and the US, according to a Harvard University report. The Centre for International Development at Harvard University said in new growth projections on Thursday that countries that have diversified their economies into more complex sectors, such as India and Vietnam, are those that will grow the fastest in the coming decade.

"India tops the list as the fastest growing country for the coming decade, at 7.9% annually, in the economic complexity growth projections. India has made inroads in diversifying its export base to include more complex sectors, such as chemicals, vehicles, and certain electronics," the report said. It said India's productive capabilities far exceed expectations for its current income level, which contributes to the projection of rapid growth for the coming decade. Researchers also find that India ranks the best on the criterion of the Complexity Opportunity Index (COI), which mea-

asures how easy it is to redeploy existing knowhow to enter new complex products. "India's existing capabilities have not only diversified its exports, but also allow for easy redeployment into related products that depend on those capabilities, making further diversification relatively easy," the Harvard study said. "China is projected to grow at 4.9% annually to 2026, the US at 3% and France at 3.5%." The top ranking in COI means India has many "unrealised opportunities" to diversify into related, high-value sectors to continue to drive productivity growth and job creation.

Kerala's ₹1500-crore SEZ will be live in 2 years, says Boston Taurus chief

M SARITA VARMA
Thiruvananthapuram, May 4

THE ₹1,500-CRORE world technology hub of the Technopark in Kerala is scheduled to be ready for occupancy by 2020. The Kerala SEZ (Special Economic Zone), in a joint venture (JV) with Embassy Property Development, is the first Indian foray of Boston-based private equity giant Taurus Investment Holdings.

gan, CEO and co-founder, Taurus Investment, said: "The site preparation will get cracking next week. The civil work will commence after the monsoon. We have also hired half a dozen construction professionals for the preliminary work on the Indian project." Merrigan also met Kerala chief minister Pinarayi Vijayan this week. Given the much-known American scepticism of Communist-ruled governments, hasn't it been a bit surprising that the Boston MNC's first step to the

Eastern side of the globe was in India? "True, we did nurse some initial misgivings about communist governments," said Merrigan. "It was a pleasant surprise that Technopark in the Left-ruled Kerala was a facility to nurture private enterprise and that the head of the state seems to be quick to grasp the dynamics of investment. We have never pretended that profit for investors is not our target. All that Taurus Group is fastidious about is trans-

parency and credibility in dealings with government machinery," he says, recounting a couple of years scouting secure investment opportunities in Russia, which "did not work well". After the Indian project is completed in two years, Taurus has eyes on setting up an office in Dubai. Kerala's business bonhomie with Dubai would help this move, they feel. "In the long-term, we may work out plans to have operations across the Gulf, based on Dubai, said Merrigan.
